

To Whom It May Concern,

I am writing to respectfully urge the FCC to reject the National Association of Broadcaster's petition 04-160 regarding local broadcast content of satellite radio providers.

The NAB's efforts seem too much like a convenient way to regulate away competition to their long standing monopoly. As a consumer and participant in the free market, I find the NAB's efforts a low attempt at control of my choice of service.

Please note that I speak not just for myself, but many other friends with satellite radios who are not as motivated to contact their government - but that want as much from their service as possible.

Sincerely,

Drew Hendrix  
Plano, Texas
